**H**armony Homes is a buyer-inspired company. Everything we do comes from buyer input. We look seriously at what our customers want and incorporate that into our home designs, locations, neighborhood amenities and included features, building homes that fit the lifestyles of our buyers.

We focus on delivering affordability without compromising quality. What sets us apart from our peers is that we strive to make our homes affordable without lowering the specifications or quality of materials. This is achieved by building strong and long-lasting relationships with our trade partners who share our vision and best practices.

It is important to us that our buyers are satisfied and get what they really want. This focus on customer satisfaction and service is what drives our business, evident in our high percentage of sales made through referrals.

Headquartered in our home town of Las Vegas, we have communities located throughout the valley, and due to our local success, we have expanded our business into California and Texas.

Simply put, we build homes in which people want to live, work and raise a family in. It is from this internal vision that we are inspired by you, to build homes that last for generations.
